

30 August 2022

This letter online: <https://www.askpsy.nl/catching-up-on-introduction>

Dear new FPN Master student,

You just started a new Master programme at our faculty. Welcome at FPN!

If you missed parts of the introduction days, for example due to illness, this means that you will have to compensate for the missed parts soon. You can start with your studies, but you need to pass the PBL training within 4 weeks after the start of the curriculum to be able to continue your studies at FPN.

Mandatory

Problem Based Learning (PSY4950)

There were multiple PBL sessions. If you missed a few, or all of them, you need to make a catch-up assignment.

Please contact our PBL coordinator Wladimir van Mansum and inform him that you missed part of the PLB sessions. He will provide you with a catch up assignment.

You can contact him via e-mail: whj.vanmansum@maastrichtuniversity.nl

Introduction Library

Complete the four assignments in the course before Friday 8 Oct. 2022 23:59hrs. These assignments are mandatory, even when you hold a UM bachelor's degree.

You can find the course via <https://studentportal.maastrichtuniversity.nl>. Click the course name ('Introduction Library') > Course Details. That will send you to canvas.maastrichtuniversity.nl, our online learning environment.

Not MandatoryFPN Onboarding

You missed the FPN Onboarding session, the students-for-students practical in which we explain how things work at FPN. Fortunately, a lot of the information is available at [AskPsy.nl/onboarding](https://www.askpsy.nl/onboarding).

If you still have questions after watching the video's and reading the information on AskPsy, join one of the extra hands-on sessions. From 7 September 2022 onwards, you can sign up for such a session via [AskPsy.nl/onboarding](https://www.askpsy.nl/onboarding).

Feel free to contact us if we can be of any assistance.

Best regards,

Vera and Anne
